

Autodesk® Navisworks® Fundamentals

Objective: See the functionality of Autodesk® Navisworks® Review, Simulate, and Manage features. Learn how to open, review, and run object-interference checks on 3D models and how to link task-scheduling files and create 3D construction simulations. Using the Animator and Scripter tools, create interactive animations. Also learn how the Presenter tools can help you create photorealistic images and animations. Gain the skills and knowledge to use Navisworks® effectively.

Course Length: 3 days (24 hours)

Day 1

- Getting Started
- 3D Model Review

Day 2

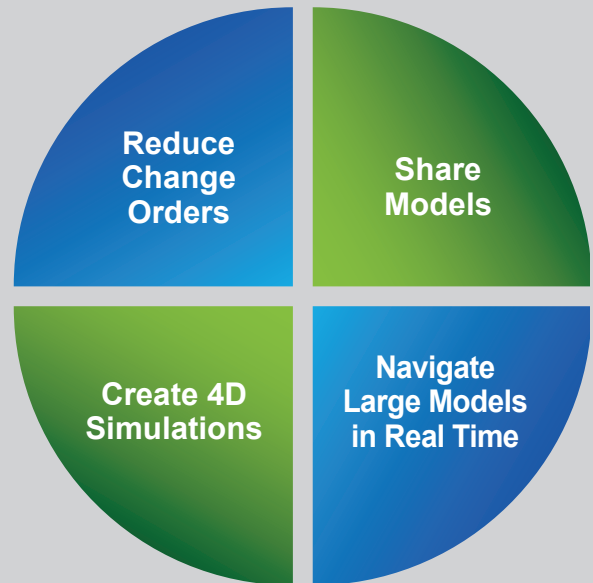

- Timeliner
- Animator
- Scripter

Day 3

- Presenter Basics
- Presenter Advanced Features
- Clash Detective

- Lunch is included when training at our facility.
- Class is from 8:30 a.m. to 4:30 p.m.
- Students will receive a certificate upon completion.
- After completion of an entire class, students may audit the same class for one year, if space is available in the class.
- Attend the class in person at our training center in Atlanta or virtually from anywhere in the world via the internet

Prerequisites: A working knowledge of basic design/drafting procedures and terminology as well as Microsoft operating system.

Advantages to Training at Repro Products' Autodesk® Authorized Training Center:

- Learn from our Autodesk Certified instructors at our superior facilities.
- Receive Autodesk® recommended content from Autodesk® Official Training Guides.
- Get your hands on sample projects and exercises that emphasize real-world application.
