

Revit® Architecture Intermediate

Objective: This course is designed to allow students to continue utilizing Revit® Architecture to increase their knowledge and productivity through additional collaborative tools, advanced development tools, and advanced construction document tools.

Course Length: 3 days (24 hours)

Day 1

- Project Phasing & Design Options
- Groups & Links
- Importing & Exporting
- Project Team Collaboration

Day 2

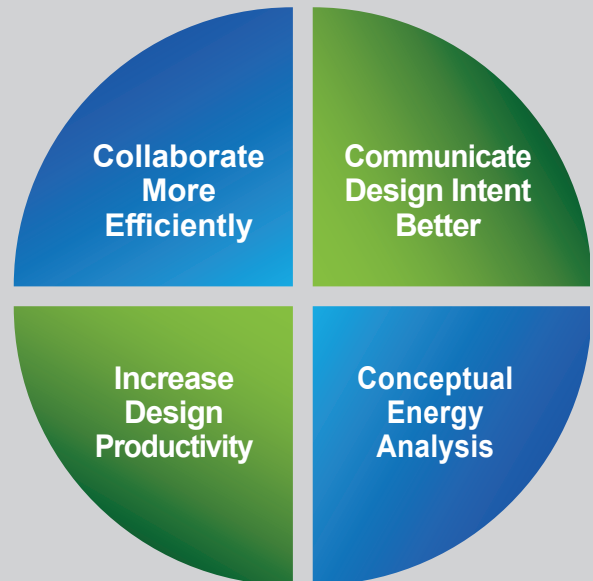

- Advanced Modeling Tools
- Curtain Walls
- Site Design
- Structural Tools

Day 3

- Detailing in Revit® Architecture
- Schedules
- Advanced Annotation
- Advanced View Setup

- Lunch is included when training at our facility.
- Class is from 8:30 a.m. to 4:30 p.m.
- Students will receive a certificate upon completion.
- After completion of an entire class, students may audit the same class for one year, if space is available in the class.
- Attend the class in person at our training center in Atlanta or virtually from anywhere in the world via the internet

Prerequisites: A working knowledge of basic design/drafting procedures and terminology as well as Microsoft operating system. Revit® Architecture Fundamentals or equivalent training is highly suggested.

Advantages to Training at Repro Products' Autodesk® Authorized Training Center:

- Learn from our Autodesk Certified instructors at our superior facilities.
- Receive Autodesk® recommended content from Autodesk® Official Training Guides.
- Get your hands on sample projects and exercises that emphasize real-world application.

Call 678-640-9965 to schedule your training.
